

Introduction to the Hierarchic Dementia Scale – Revised (HDS-R) and the Possibility Oriented Approach to care planning workshop

Presented by: Jackie Reynolds, Occupational Therapist (pictured top right)

Dementia Training Australia is partnering with the **Western Australian Occupational Therapy Association** to present this very popular workshop.

Workshop objectives:

- Understand the underpinning theory of the HDS-R
- Demonstrate ability to assess people with dementia using the HDS-R
- Combine the results of HDS-R assessments with a Possibility Oriented Approach to provide person-centred interventions.

Who should attend?

Registrations for this workshop are invited from tertiary qualified health professionals working in acute, residential or community settings, particularly those responsible for assessing cognition and creating care plans for people living with dementia.
